

TESTIMONIALS

"I'm so happy my husband found this firm to handle my personal injury case. Special thanks to Maria Loventime Estanislao. She settled our cases in less than three months, when our other attorneys couldn't do a thing. I highly recommend Maria and this firm."

-- Christine W.

"D.R. Patti & Associates is a wonderful firm. Marc Naron represented me after a car accident last year. The firm has great customer service, and Marc Naron communicated with me himself as they advanced in the matter. More importantly, I was seen by a doctor for my injuries, and I didn't worry about the cost. I fully recovered and was given a fair settlement. I highly recommend D.R. Patti & Associates as a proficient, professional, and friendly law firm. Thank you D.R. Patti & Marc Naron."

--Rachel L.

"I had a car accidents in the past but I have never been treated so GREAT by any other lawyer in Nevada and Texas they are #1. Come to them for professional, compassionate, exceptionally talented and super friendly and kind and super supportive smart team of lawyers and all personnel."

--Una & Christopher D.

WHAT TO DO IN A CAR ACCIDENT?

AT THE SCENE

CALL 9-1-1. The police and an ambulance should arrive at the scene. The police will conduct an investigation and gather necessary evidence. If you injured or feel some symptoms, you should get evaluated by EMTs or go seek medical attention.

EXCHANGE INFORMATION. Take a photo of the other driver's license, car registration, and proof of insurance.

TAKE PHOTOS. Even if the police has been called or are already there, make sure to take photos just in case the police doesn't. Take photo of the following:

- all cars involved from different angles
- wide angle shots of the position of the cars involved
- debris or things that have fallen from the cars
- skid marks on the street

GET WITNESS INFORMATION. Even if the police are called, get the name and phone numbers of witnesses at the scene, just in case the police doesn't.

SEEK IMMEDIATE MEDICAL ATTENTION. It's important to get medical attention as soon as possible, particularly if you hit your head.

DO NOT ADMIT FAULT. Determining who caused the accident should be left to the professionals, including experienced car accident attorneys.

AFTER THE ACCIDENT

REPORT THE ACCIDENT TO YOUR INSURANCE COMPANY. If you don't feel comfortable speaking with your insurance company, you can call us and we will take care of it for you.

DO NOT SPEAK TO OTHER DRIVER'S INSURANCE COMPANY. The other driver's insurance company may call you. If they do, they will want a recorded statement about how the accident happened and whether you are injured. What you tell the insurance company may be manipulated and used against you later on.

CALL US. From our experience, we know you may have more questions, such as who will pay to fix your car or your medical bills. Even if you chose not to pursue a personal injury claim, we can answer any questions you may have.

SOME COMMONLY ASKED QUESTIONS

HOW MUCH DOES IT COST TO HIRE AN ATTORNEY?

All personal injury attorneys work on a contingency basis. This means we don't get paid unless we get you money. D.R. Patti & Associates does not take more money than our clients.

WHAT DOES A PERSONAL INJURY CLAIM INVOLVE?

We get our injured clients compensated for their medical bills, lost income, pain and suffering, and any other out-of-pocket expenses caused by an accident.
